A FEW WORDS FROM YOURS TRULY

Hello – and welcome to the latest issue of **LAVERNOICH'S LOUNGE** – at least six months after the previous issue. As for why that's so – there's a good reason for that, which I'll explain right away (*as well as what I'm aiming to do creatively in the near future*).

Between late-August of this year and this month, most of my attention's been focused on getting my next book, **THE JANUS TERROR**, getting ready for both publication and purchase (*which partly forms the basis of this issue's cover – and which I'll go into detail in the **BOOK BUNGALOW** section inside this issue*). However, plans haven't exactly gone as planned for several months – and not just from a creative standpoint. You can understand what I mean, since we're nearing the second anniversary of **COVID-19** affecting the entire world, which had – for the most part – upended the plans of many since (*and is still is*), with the end of the pandemic not yet in sight (*though both science and medicine have since given many an advantage over **COVID-19***).

As for my creative efforts – as much as it's important to remember past achievements, it's also important to head forward into the future. **THE JANUS TERROR**'s one example of what I'm planning for the future – and, to a certain degree, so is **LAVERNOICH'S LOUNGE**. The overall purpose of my newsletter remains the same – only it'll be a bit more detailed, as you'll learn while reading this very issue (*not to mention those in the near future*). And that's *not* all that I'm planning – as will be elaborated, and not just in future issues of **LAVERNOICH'S LOUNGE** (*and encouraging you to check out and possibly purchase some of my wares is an important part of that*).

As usual, I hope that you enjoy this issue – while encouraging others you know to check it out as well. Those of you wishing to e-mail me *both* praise and brickbats – as well as ideas on how to actually improve **LAVERNOICH'S LOUNGE** – can do so at jlavernoich2008@hotmail.com. Until then, please keep on web surfin'. (*And while you're at it, please also swear off Reality TV programming for good – not to mention Reality TV personalities who should never enter professional politics. Get the idea?*)
